RAIN STOPPED THE RALLY.

DOWNTOWN DEMOCRATIC CLUBS DISAP-POINTED.

They Were Very Confident and Fearless o the Weather Till the Rain Came Down-The Meeting Will Be Held Next Saturday at the Same Place-Many Clubs

The weather clerk's left ear must have tingled almost painfully this morning, for the downtown business men were saying the most uncomplimentary things about him all the forenoon, and the growling which was heard about 11 o'clock when the rain began to pour down in good earnest, was loud enough to have sent the unfortunate meteorologist to bed with an earache for a week.

But the Committee of the Consolidated Merchants' Cleveland and Thurman Campaign Club, said that the big demonstration at the Sub-Treasury in Wall street was bound to take place, rain or shine, and that while the disgustingly bad weather might interfere with the parading of the various clubs, it would not stop the speaking or interfere with any of the prearranged ceremonies in Wall street The platform for the speakers, vice-presi-

dents and invited guests on the steps of the Sub-Treasury Building was completed yesterday. This morning was devoted to its decoration, which was truly gorgeous and artistic.

The entire front of the platform from the The entire front of the platform from the floor to the sidewalk, a distance of about ten feet, was closely draped with American flags. From each end floated the, emblem of the State, while scattered around at convenient points were lofty flagstaffs, from which the Stars and Stripes were suspended. At the back of the platform, upon the two centre granite pillars of the Sub-Treasury, were affixed large and handsome portraits of the Democratic candidates.

Lots of people stopped in the street in spite of the rain, almost completely blocking the sidewalk, to watch the progress of the work. At the headquarters of the combined organizations, at the Stevens House, there was a busy scene. All the different clubs which

anizations, at the Stevens House, there was a busy scene. All the different clubs which wished to join in the parade had made their applications, and had been assigned places in the line. They were the Stock Exchange, Wholesale Dry Goods, Produce and Maritime exchanges, Consolidated Stock and Petroleum, West Side, Coffee, Cotton, Jewellers', Canal Boatmen, Harbormen, Insurance, Wine and Spirit, Young Men's, Metal Exchange, Auxiliary, Stock Exchange and the Temple Court Club. There was no particular line of march, but each club had orders to assemble in the vicinity of its headquarters and take up the line of march by the nearest route to Wall street, where they will all amalgamate and fall in about the speakers' platform.

smalgamate and fall in about the speakers' platform.

Had it not been for the rain the paraders would undoubtedly have exceeded ten thousand persons. The police arrangements, however, were none the less perfectly carried out, and Inspector Williams, assisted by several of the downtown captains, had a squad of about one hundred men out to see that there was no ifferference with the programme for the day.

Secretary of the Treasury C. S. Fairchild, one of the principal speakers, arrived in town last night and put up at the Buckingham. Congressman Wilson, another prominent orator, came this morning and put up at the Sturtevant. The Reception Committee, of which Mr. Frank N. TWELVE VICIOUS ROUNDS.

They Ended in a Draw on Long Island This

Johnny Brandly, of Brooklyn, and Eddy Perry, of New York, fought a draw battle of twelve rounds in a barn on Long Island at an early hour this morning.

The fight would not have terminated a sit did had it not been for an excited sport who yelled "police."
Brandly is twenty years old, stands 5 feet 1

inch and weighs 102 pounds. He was seconded by Swipes, the newsboy, and Dot Ryan. This was his first fight.

Perry stands 5 feet 4 inches, weighed 108 pounds and is eighteen years of age. He was waited upon by Billy Gilmartin and Jack Fagin.

The lads fought for a stake of \$200 and a purse of \$100 subscribed by the spectators. Skintight gloves were used, and Queensberry rules governed the contest.

At the call of time Brandly was the first to lead, landing his right full on the face. Perry responded by knocking him down with a right-handed pinch on the side of the body. Both men drew blood in this round, and the fight went on most viciously from that time. Perry's nose was smashed in the sixth round, and his left arm gave out in the tenth, but he kept up pluckily for two rounds more, when the fight was broken up as stated.

A decided povelty in the amusement and athletic worlds will be introduced for the first time on this side of the Atlantic, at Madison Square Garden, at midnight tomorrow. Then will commence a great six-

day's rowing match. The peculiar and novel part of this rowingmatch is that it will not be rowed on water and that neither oars nor shells will be introduced.

In their stead the race will be on the newly invented roadsculler, or in other words, land-rowing tricycle. Twelve champion oarsmea, all ot whom have world-wide reputations, will compete

miles.

Along with these are eight special prizes to be distributed as follows:

The first four making 800 will each receive \$250; the first three making 900 miles will get \$500 apiece, and the first one to make 1,000 miles will receive \$1,000, or \$1 for each mile

he makes.

The rowing tricycle is propelled exactly as a single shell is rowed, it also having a sliding seat. The only exception is that the oarsman faces ahead. The machine is capa-

The present is the first race on the road-sculler in this country. In England these tournaments are all the rage and attract great attention. The last one held there ended on the 13th of February. It was a six days contest and took place in the London Aquarium. Wallace Ross was the winner. He averaged twelve miles an hour.

This mode of racing is, to say the least, very daugerous, and should one of the wires which run to the wheels break, the oarsman would, if he got off with broken bones alone, be lucky.

The same rules that govern borse races have been adopted. The outside track will be twenty feet in width, and this will be divided into four other tracks. Each man must keep his track and only take the pole when there is a clear space. If one fouls another he will be fined from one to four laps, and if he should do so by design he will be fined from four to eight laps.

Miss Paul Rochester" Questioned by Evening World " Reporter

[SPECIAL TO THE EVERING WORLD.] CHICAGO, Oct. 6.—The remarkable story of Miss Paul Rochester's experience in Honduras, published here a few days ago, attracted a good deal of attention, fully as much from the peculiar manner in which they were told as for any other reason.

The first intimation that she was Mrs. Lily M. Curry came from a Chicago newspaper reporter. He had known Mrs. Curry in the West a good many years ago, and he thought he recognized something familiar in the deeription of Miss Paul Rochester.

With an EVENING WORLD reporter be went o-day to the house in Park Row where the young woman has lived since she came to lown.

to-day to the house in Park Row where the young woman has lived since she came to town.

The first question The Evening Wobld reporter asked was if Miss Rochester knew Ella Wheeleg Wilcox.

She shivered a little at the name, and said she did not and had never even seen her, although her name was, of course, familiar.

"Did you not write a book which Mrs, Wilcox praised highly and helped to bring into public notice?"

"Oh, no."

"What was your maiden name?"

"Why, Paul Rochester, just as I told before."

"Isn't your name Lily Curry?"

The young woman started, caught her breath and stammered: "Oh, no; not at all, Who is Lily Curry?"

"Did you ever hear of Paul Tyner?"

By this time Miss Rochester was half hysterical. She laughed and said: "Never in my life. Who is he?"

"Now," asked the reporter, "isn't it true that you eloped from New York with a young man of that name?"

"Oh, no, What a fool a girl is to elope. I never eloped with any one. What does all this mean? Who has been telling these stories about me? I am, just as I told you, an orphan girl who went to Honduras for business and pleasure and had some strange experiences there."

And with that she went on about her mine and the rest of her story. Similar questions but in a different way only produced similar answers, and Mrs. Curry declared solemnly and repeatedly that she was not Mrs. Curry. The Chicago newspaper man had recognized her, however.

When he tried to recall to her occasions when he had seen her she pleaded illness and asked to be excused from further questioning.

Mrs. Curry is remembered here as a bright writer for the Chicago press. Several years ago she came here from Wisconsin, where her writing had attracted the attention of Ella Wneeler Wilcox, who was then living at Madison. Mrs. Curry's first book was written in Chicago. Her stepfather, Frederick G. Surbridge, formerly a clergyman, is now a teacher. Her half-brother, Raymond G. Surbridge, is a dealer in bicycles who recently failed.

Mrs. Curry's residence in Chicago was short, and she did not make many acquaintances here. When she returned here three weeks ago her relatives tried to conceas her identity, and she might have stayed here for months without being known if it had not been for the letters to the newspapers, which attracted the reporter's attention to her.

There can be no doubt that Tammany Hall
has nominated a straightout ticket, and that
its leader or leaders have decided to go into

The nominees are all true-blue Wigwamites, and several of them are high up in the councils of the organization.

Their nomination means a war to the death between Tammany Hall and County Democracy, and no one can at this moment predict what will be the result.

The County Democracy County Convention

this moment predict what will be the result.

The County Democracy County Convention will be in session this afternoon. It will renominate Mayor Hewitt.

There is no doubt about that.

The convention may complete its entire ticket, although a recess until Monday is talked of after Mayor Hewitt shall have been nominated.

Up to noon to-day the County Democracy leaders had decided upon only two candidates: Mayor Hewitt for renomination and Senator Michael C. Murphy for Sheriff.

A conference of the leaders will be held before the convention convenes to decide upon a programme.

If the County Democracy nominates a full ticket this afternoon, the factions war between the two Democratic tribes will begin on Monday and the people of this city will know there is an election to be held here.

The nomination of Sheriff Hugh J. Grant for Mayor has enthused his friends.

They say that Commissioner Croker would not have favored his nomination unless he was convinced that Grant could be elected.

They make this argument on the ground of the close personal and political friendship which is known to exist between the Commissioner and the Sheriff.

The theory is advanced that Commissioner Croker would not have favored Grant becoming the standard bearer in the contest if he had any thought that he would be defeated.

For months Sheriff Grant has repeatedly said that he was not a candidate for the Mayoralty nomination and would only accept a nomination in the event of the organization demonstring his seceptions.

He wished to place himself in the position of being at the service of the organization without wishing or being a candidate for the nomination.

wishes of the organization after all efforts for

Tammany Hall and the County Democracy are in a quandary.

Messrs. Barnum, Gorman, Scott and Oelrichs do not appear to know which organization to blame. They are inclined to think that there could have been harmony if the County Democracy had accepted Roswell P. Flower, who was proposed by Tammany Hall. On the other hand they think they might have worked upon the County Democracy last night and this morning with success.

The answer of Tammany Hall is that the C. D.'s were fooling the National Committee and "stringing" Tammany Hall.

Here is the opinion of Commissioner Croker:
